Docket No.:	P86-28-03		
For:	Capillary Imprinting Technique		

PETITION UNDER 37 CFR § 1.313(c)(2)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicants hereby petition to withdraw the above-mentioned patent application ("*Application*") from issue. According to 37 CFR § 1.313(c)(2), an application may be withdrawn from issue after payment of issue fee if a Request for Continued Examination in compliance with 37 CFR § 1.114 is made. Specifically, Applicants wish to submit an Information Disclosure Statement ("*IDS*") in compliance with Applicants' duty of disclosure under 37 CFR § 1.56 in the *Application*. However, the *IDS* is being filed after payment of issue fee, wherein the payment of issue fee occurred on or about December 3, 2007. To that end, Applicants wish to withdraw the *Application* from issue so that the *IDS* may be submitted, and all cited information be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom. To that end, please find accompanying this document a Request for Continued Prosecution, the *IDS* and all fees required by 37 CFR § 1.17(e) and 37 CFR § 1.17(h).

Based upon the foregoing, Applicants respectfully request the above-mentioned patent application be withdrawn from issue.

Respectfully Submitted,

A handwritten signature in dark ink, appearing to read "MD Carter", is positioned above the typed name.
